Book Hook

Dedicated to every little girl in the world, Reely Rylee is about a girl full of art and a really big heart; it is inspired by the heart of my daughter who produces the art of her soul through visual & performing arts. This book seeks to encourage children to let their internal beauty shine through everything they create for the world to see, hence the “real” Reely Rylee emerging from every artwork produced that matches the message of each page of the story.

Summary

From her D.O.B. (Debut of Becoming) to The Grand Grade Three, Reely Rylee observes the diversity of the world around her and learns to appreciate the beauty of others in the eyes she beholds. On her journey of self-discovery, she learns to be reflective, change what's necessary, love herself, love others and be an inspiration to the world.

She checked out her eyes since they were
the first thing she saw in the mirror.

They were slanted and slim and glistened
like a glowing snow globe filled with her
imagination of all the things she could do
and all the things she could be.

Yes, that made her special!
Very special!

Describe something(s) about yourself that's **very** different from others? How does that make you proud to be who you are?

Thing 1

Thing 2

Who you are on the inside
is more important than
what you look like on the outside.

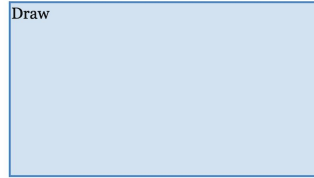

When you work to improve yourself on the
inside you are building good character.

Good character is what you want to build.
Good character is all of those good things
on the inside of you that make you
kindhearted and trustworthy.

When you have good character, you
can be sure that you will make a
positive difference in the world.

How can you become a better person by
being friends with or getting to know
different kinds of people?

Living in a place of bitterness can be very stressful and dangerous. Forgiveness and knowing who YOU are (different, unique, outstanding, beautiful, strong, courageous, confident, reflective,...) will make you and everyone else better people, and of course, it will make the world a better place.

On the flip side, sometimes, we ourselves can hurt people. Maybe, you may not have meant to hurt someone's feelings, but if the person tells you that you did, then you should respect how they feel. This is when it's now your turn to say you're sorry and try to resolve the problem so that you can be forgiven.

Remember, always treat others the way you'd like to be treated - that's known as the golden rule.
